Microphone

☑ **NOTE**:
If your headset responds slowly, stops responding, or freezes, press the RESET button on the back of the headset with a pointed tool.

Checking the accessories

Make sure you have the following items with your headset: Charging Case, Adapter, User's Guide.

Charging the headset

1. Put the headset in the charging case.

2. Plug the adapter into the case's charging socket and the outlet.
   - When charging is complete, the indicator light will appear solid blue if the headset is off or a blue light will flash if the headset is on.
   - During charging, the indicator light will appear solid red if the headset is off or red and purple lights will flash if the headset is on.

   ⚠ Do not attempt to charge the headset with anything other than the adapter provided.

   ☑ **NOTE**:
   Charging the headset will not disrupt the connection to the phone. You can use your headset right after removing the charging case.

Adapter

Turning the headset on or off

To turn the headset on, press and hold the Multi-function button until the blue indicator light flashes 4 times. To turn the headset off, press and hold the Multi-function button until both blue and red indicator lights flash.

Wearing the headset

Wear the headset on your ear. In general, you will get better performance when there are no obstructions (including parts of your body) between the headset and the phone.

Understanding various modes

- **Standby mode**: The headset is waiting for a call. The blue indicator light flashes every 3 seconds.
- **Active mode**: The headset has a call in progress. The blue indicator light flashes every 8 seconds.
- **Pairing mode**: The blue indicator light stays lit. You can discover and connect to your headset on your phone.
- **Low battery mode**: There is less than 10% of battery power left. The red indicator light flashes. You must recharge the battery.

Pairing with your Bluetooth phone

1 Enter Pairing mode.
- Turn off your headset and press and hold the Multi-function button until the blue indicator light remains lit after blinking.
- If you turn it on for the first time, it proceeds into Pairing mode immediately.

2 Search for and pair with your phone according to your phone's user guide. (Bluetooth PIN: 0000, 4 zeros)
- If the pairing is successful, the blue indicator light will flash 10 times rapidly before entering Standby mode.
- If the blue indicator light remains lit, retry pairing.

  ☑ **NOTE**:
  When the headset and the phone are paired, the headset attempts to reconnect automatically each time it turns on. Otherwise, press the Multi-function button to reconnect.

Using call functions

Some functions may not be supported by your phone.

In Standby mode
Press the Multi-function button to:
- Answer an incoming call
- Redial the last number called

Press and hold the Multi-function button to:
- Make a voice-activated call
- Reject an incoming call
Press and hold [+] and [-] at the same time to turn the indicator light on or off.

In Active mode

Press the Multi-function button to:
- End a call
- Transfer a call from the phone to the headset
Press and hold the Multi-function button to:
- Place a call on hold
- Answer a second call
- Retrieve a call on hold
Press [+] or [-] to adjust the volume.
Press and hold [+] or [-] to turn the microphone off or on.
